PROFESSIONAL SUMMARY

Results-driven Data Analyst and Administrative Professional with a B.Sc. (Second Class Upper) in Computer Science from Babcock University. Experienced in producing routine and ad hoc data analysis, cleaning and validating datasets, and building Power BI and Excel dashboards that support operational and programme decision-making. Experienced in building dashboards, analyzing business and customer data, identifying performance trends, and translating datasets into clear insights for decision-making. Projects include financial performance, retail transaction, HR, customer churn, and health data analysis. Strong interest in business intelligence, process improvement, and using data to solve practical business problems.

CORE SKILLS

- **Analytics & BI:** Power BI (Dashboard Development, DAX, Power Query), Microsoft Excel (PivotTables, Power Query, Advanced Excel), Google Sheets, KPI Tracking, Data Cleaning & Validation, Data Quality Assurance, Exploratory Data Analysis
- **Programming & Data Analysis:** SQL, Python (Pandas, NumPy, Plotly, BeautifulSoup), SQLite, Jupyter Notebook
- **Administrative & Operations:** Document Management, File Organization, Scheduling & Calendar Coordination, Report Preparation & Automation, Meeting Support, Presentation Formatting (PowerPoint, Canva)
- **Finance & Client Support:** Intuit/QuickBooks, Client Billing & Payment Processing, Financial Record Reconciliation
- **Tools & Platforms:** Microsoft Office Suite, Google Workspace (Docs, Sheets, Drive), Canva, AI Productivity Tools

PROFESSIONAL EXPERIENCE

Data Analyst & Administrative Support - 2 Division Nigerian Army, Ibadan, Nigeria

Jan 2025 – Dec 2025

- Designed and automated Excel reporting templates, reducing manual reporting time by 25% and improving turnaround for operational data requests.
- Cleaned, validated, and prepared structured datasets across multiple departments, significantly improving data accessibility and reducing inconsistencies.
- Conducted data quality checks and resolved reporting discrepancies, supporting accurate and reliable information flow across operational workflows.
- Introduced digital scheduling tools and standardized reporting templates, reducing manual administrative effort by 25% and contributing to 70%+ system uptime.
- Maintained documentation and version control of reporting templates and tracking systems, ensuring consistency and auditability of data outputs.
- Assisted with presentation preparation, meeting support, and routine documentation, contributing to smoother coordination across departments.
- Trained staff on Microsoft Office tools, digital filing systems, and modern productivity practices, improving adoption of efficient admin processes and data literacy.

Finance & Administrative Intern - Cedar Care, United States (Remote)

Sept 2024 – Nov 2024

- Managed and processed client payments and financial transactions using Intuit accounting software, ensuring accuracy and timely recording of all entries.
- Maintained organized financial records and reconciled client payment data, supporting a clear and auditable transaction history.
- Coordinated with internal teams to resolve payment discrepancies and ensure seamless client billing operations.
- Gained practical exposure to U.S. financial operations, administrative controls, and compliance practices within a remote professional environment.

KEY PROJECTS

PMO's Apparel — Financial Performance Dashboard | Excel · Power Query · PivotTables · Dynamic Formulas

- Designed and built an end-to-end interactive financial dashboard from wireframe to final build, tracking ₦2.19B in revenue, ₦1.10B in expenses, and 49.9% profit margin across products, months, and years.

- Engineered a fully dynamic “Key Insights” panel using nested Excel formulas (INDEX/MATCH, MAXIFS) that automatically updates its narrative text alongside slicer selections, eliminating static/hardcoded reporting.
- Authored a formal Analyst Q&A and insights document explaining KPI selection, chart design rationale, and year-over-year findings (e.g., 14.2% reduction in expenses driving a 13.6% profit increase in 2025) for stakeholder presentation.

Retail Transaction Analytics Dashboard | *Excel · PivotTables · Power Query · Data Cleaning*

- Cleaned and analyzed a 3,000-transaction retail dataset, building a multi-page Excel dashboard to monitor revenue, product performance, regional performance, and quarterly trends across 2024–2025.
- Identified Personal Care as the top-performing category (₦3.54M) and surfaced quarter-over-quarter revenue trends, supporting data-driven merchandising and regional performance conversations.
- Built a structured Data Dictionary and standardized cleaning workflow, improving dataset reliability for downstream reporting.

HR Workforce Analytics Dashboard | *Excel · PivotTables · PivotCharts · Power Query*

- Built an Excel-based HR analytics dashboard analyzing workforce size, employee attrition, compensation, performance, and engagement across departments.
- Applied data cleaning, PivotTables, and interactive dashboard elements to identify workforce trends and surface areas requiring management attention.

Health Risk Analysis Dashboard | *Power BI · Power Query · DAX · Data Modelling*

- Built an interactive Power BI dashboard analyzing smoking status, BMI, cholesterol, and hypertension risk across 193 patients and multiple age groups.
- Designed organ-specific slicers (Heart, Kidney, Liver, Lungs) enabling users to filter and explore health indicators by body system.

FIFA 20 Player Analysis | *Python · Pandas · NumPy · Exploratory Data Analysis*

- Conducted a Python-based exploratory data analysis of FIFA 20 player data, examining performance ratings, potential, market value, age, club, and nationality trends across thousands of players.
- Applied data cleaning and statistical visualization techniques in Pandas/NumPy to surface value-vs-performance patterns, building hands-on Python proficiency alongside existing Excel/Power BI expertise.

Customer Churn Analysis | *Python · Pandas · NumPy · Plotly · Jupyter Notebook · SQLite · Excel*

- Built an end-to-end customer churn analysis in Python, combining customer, subscription, and support data to identify key factors associated with attrition.
- Analyzed churn by contract and plan type, churn score, customer satisfaction, and CLTV, and visualized monthly trends and subscription-source patterns using Plotly to support targeted retention strategy discussions.

Mental Health Support Platform | *Administrative Systems Support · Team Project*

- Coordinated intake structure and workflow documentation for a digital platform connecting 200+ students with licensed therapists.
- Organized user data, appointment flow, and support records to improve communication between students and counselors.
- Maintained strict confidentiality while supporting a people-focused system involving sensitive personal information.

PROFESSIONAL DEVELOPMENT & CERTIFICATIONS

- Data Science Fellowship, New Horizons Tech Hub — Developing proficiency in Python (Pandas, NumPy, BeautifulSoup) and SQL for end-to-end data science workflows (Jan 2026 – Present)
- Microsoft Power BI — Certificate of Completion, New Horizons Tech Hub (2026)
- Advanced Excel for Data Analysis — Certificate of Completion, New Horizons Tech Hub (2026)
- CompTIA A+ Core 1 & 2, Oracle 12c Fundamentals & Administrator, Java SE8 OCA & OCP — New Horizons (2024)
- Excel Essential Training (Microsoft 365) — LinkedIn Learning (2024)
- Microsoft Excel Specialist (2024)
- Ask Questions to Make Data-Driven Decisions — Google, via Coursera (2025)
- Foundations: Data, Data, Everywhere — Google, via Coursera (2024)
- Customer Service Foundations — Coursera (2024)
- Jobberman Soft-Skills Training — Mastercard Foundation / Jobberman Nigeria (2024)
- IndabaX Nigeria 2026 Conference — Attendance & Participation, University of Ibadan (2026)

EDUCATION

LEADERSHIP & PROFESSIONAL AFFILIATIONS

- YALI Network (Young African Leaders Initiative) — Member (July 2026 – Present)
- Nigerian Society of Data Analysts and Business Intelligence Experts (NSDABIE) — Associate Member
- Advocate & Educator, Pad Her with Love (PHWL) — Menstrual Health Awareness (Jun 2024 – Aug 2025)
- Class Governor, Victory Sanctuary Bible School, Lagos, Nigeria (Aug 2024 – Jul 2025)
- Media Lead, Legacy Youth Education Club, Nigeria (Jan 2024 – Aug 2025)
